FREE SOW Mentorship & "How to SOW" Workshop with direct purchase of SOW Curriculum*
RE:K-12th , TE I & SLW: K-5th &/or 6th-12th .

“Why/How should Christians educate their children?”

We have noticed; there are two reasons Christians educate their children. One is reactionary... parents react to the poor quality of education, influential bad peers, government control, insufficient funds, lack of moral or Biblical teaching, and misconceptions about what and how to educate their children. The second reason is visionary... these parents/teachers may be reacting to any of the above; but, they are moving forward with a specific purpose. Their goals may be many, such as groom their children into a certain career, sports, ministry, or talent. But according to the Bible, there is only one eternal purpose for Christians to educate their children. Jesus commanded His disciples to “Go and make disciples ... teaching them all I commanded”. Disciples are students or followers of Christ. Therefore, if we are disciples of Christ, we should be good stewards and teach and train our children to be “Students Of the Word” & to “abide in Christ”. The SOW Curriculum or SOW Devotional will help disciple you, as well as, your students, making it the perfect tool to follow in Jesus’ foot steps. As Christians, are we going to be able to say this concerning our children...*“I have glorified You, Father, by accomplishing the task you have sent Me to do....Those You have given Me,... have received Your Word... make them one as We are one.” Jesus*

Unique Characteristics of the SOW Curriculum* ...

1. **Biblical vision**...The goal is to know God; the method is discipleship; the main text is the Bible.
2. **Comprehensive education**...There are lessons for all the major K-12th subjects such as Bible, prayer, penmanship/memory, creative writing, literature, English, spelling, speech, reading, foreign language (Hebrew & Greek), science, geography, history, plus various electives; Math is not included.
3. **Accredited and free resources** ... The recommended resources meet national standards for grades K-12th using texts such as Bob Jones, ABeka, Rod & Staff, IEW, AIG, etc.. Note: Each subject/ lesson has free online links, also.
4. **Integrated subjects** ...Every subject is centered on the Bible (not history, literature, principle, or doctrine) creating a special connection between all the subjects.
5. **Discipleship approach**... Each student is taught how to Praise- Repent- Ask-Yield, study the Bible inductively from Genesis to Revelation, memorize the Scriptures, walk in the Spirit, and a Biblical view in every subject.
6. **Individually paced**... This is achieved through personal schedules, step by step lessons, one on one instruction, and various skill level worksheets and charts.
7. **Nondenominational** ...Utilizing parental guidance, inductive skills, critical thinking, various sources, the Bible (any version) as the main text, assures a nonbiased Biblical Christian education.
8. **Multi-level instruction** ...Whole concepts & skills transcend grades, abilities, or ages.
9. **Mastery of whole concepts & various skills**... All major K-12th subject/topics, except math, are learned by repeating skills, such as outline, vocabulary, topical, character, setting, application, survey, biography, poetry, letter, comparison, persuasion, demonstration, explanation, drama, art, craft, music, service, model, nature, journal, timeline, map, culture/resource study, report, experiment, observation, and/or diagram, until all subject concepts and skills are mastered.
10. **All students inclusive**... K-12th, special needs, and/or English second language students learn by skill & concept repetition, step by step lessons, & utilizing oral, drawing, &/or writing to communicate.
11. **Friendly Budget**... There is no need to purchase multiple texts for each grade level per subject for each student (12 years x 10 subjects = at least 120 texts to purchase). The SOW has free links per lesson and recommended

accredited texts are used as multiple grade level sources.

12. **Biblical view**...Wisdom is achieved, not just acquired knowledge because the Bible is the main text & inductive skills are used to seek the truth in every subject.
13. **Testing & evaluating**...Diagnostic and/or achievement tests, student progress reports, personal check outs, & subject evaluations of completed lessons keep the parent, teacher, & officials informed of the student's progress.
14. **Personal & home management** ... Instructions, schedules, & charts train the student to be good stewards of their time and responsibilities.
15. **Inductive method**... Skills such as analytical questions (who, what, when, where, how, why), research (finding answers using various sources), critical thinking (recall, sequencing, comprehension, etc.), communication (speaking, drawing, writing), and application (applying knowledge to every day life) are used to draw out the truth.
16. **Scope & Sequence**... It provides a 2, 3, 4, 6, 12 year or custom plan to fit your individual, student, family, church, school, or co-op's needs.
17. **Support system**...Teacher and student have access to an experienced educator with a degree to train & teach, answer questions, give advice via FREE blog, email, phone consultations, workshops, personalized mentorships (student progress reports).
18. **Easy to Implement**...By following a specific schedule, scope & sequence, & lessons with K-5th, 6th-12th, & Advanced reproducible skill/grade level worksheets make it easy for teachers to teach the instructional grade levels, K-5th, and for 6th-12th students to be independent.
19. **Family oriented**... Devotions, co-ops, home management, multi-level learning, & elective activities such as camping, holiday traditions, etc.. *are included.*
20. **Life skill training** ... There are suggestions for mentorships/apprenticeships in: ministry, vocation, life, and single or married living.
